As it will probably be interesting to some of your readers, to have occasional descriptions of the country through which I shall pass; and also my impressions of men, manners, habits, customs, &co., I will, from time, to time; communicate such as L think will be interesting to consequent and may take to

We left the Long Wharf, at Newport, ast evening, at fifteen minutes past eight o'clock, in the good steamer Massachusetts, Captain Brown, and moved quietly on our way, with the prospect of a beautiful night; the heavens above were bright and clear and the water was smooth as a point. heavy cloud lay in the Northwest from which frequent flashes of lightning shone forth to mingle with the bright moonlight, thus affording a somewhat singular, yet pleasing contrast. As we gradually approached Point Judith, the gentle swell of the waves reininded us that we should soon be upon the bosom of old occan, and several of the more prodent passengers, who probably had no particular desire to ben hastily called upon to adjust their accounts, and long and pleasant that with him relative repaired to their berths. There was but little motion to the boat however, and we little motion to the boat however, and we I was so much pleased last winter, while soon passed the Point and shaped out I was so much pleased last winter, while course up the Sound running quetty along there for a short time. Capt. Scorize in until half past eleven o'clock, when we met of forms me that he is here for the purpose of the Bay State, and, as an interchange of friendly salutations, a shower of magnifi-1 cent rockets went up from both boats. I lake possession of the large estate which was soon after retired, and; at a late hour gently passed to the balmy land of dreams, from which I did not return until this morning at six, and we were then within twentyfive miles of the city.

When we approached Hell-gate, about thirty vessels were passing through, and it was with great difficulty that we could get along, without running into some of them; by excellent management of the pilots, however, no accident happened, and we were all rejoicing in our good fortune, when just abreast the rock on which the Oregon was wrecked about a year since, as we were running towards the shore it was necessary to make a short turn, and keep in the channel, one of the rudder chains, broke; the boat was under full headway; going directly towards the shore, and but a short distance from it. Our situation was truly a critical one, for Hell-gate is no very desirable place to be shipwrecked. The scene was very exciting, Captain Brown's shrill, voice was heard all over the boat, giving orders to the men, which were obey ed with astonishing alacrity; the orders of all hands aft!" "man the tiller !" "stand by your anchors in broke on our ears in quick succession. Some dozen hands manned the tiller, while one pilot stood on the deck above, and gave them directions, as they were passed to him, through others stationed on the upper-deck, from the Captain at the wheel. The engines were backed, and for a few moments of intense anxiety, it was impossible to tell whether we should go on to the shore, or the "Oregon rock." Again and again the orders were passed along, "Starboard a little " "Stabord !" "Hard-a-port !" &c., &c., until we wern out of danger; the boat was steered in this manner for about three miles, when the chain was repaired, and we went on our way again rejoicing and arrived here about 9 o'clock.

I am very confident that in nine times out of ten, a boat would have gone ashore, under similar circumstances; and it was only through the coolness and indefatigable energy of Capt. Brown and his officers that we escaped.

POTATOR CROP IN BERNUDA .- The Royal Gazette of the 14th ult., in speaking of the potatoe crop, says:

It is a most gratifying circumstance; to be able now to observe, that we have not up to the present period, heard of one instance, where the rot has attacked the potatoes in these Islands this year. In the early part of the sesson some apprehension was entertained that the plague had re-appeared, but such proved not to be the case. The potatoes now gathering, though excellent, are not so numerous or as large as usual-this may be attributed to the want of seasonable weather soon after planting. The quantity of seed planted this season was much less than it would have been had the rot not attacked the potato the past

It is to be hoped the crop, in other quarters of the world, will prove sound as the Bermuda crop.

AID FOR IRELAND.-The New York Evening Post says the amount of money which has been received by the committee in that city, for the relief of the destitute in Ireand, is stated to be \$144,000.

The following we cut from the New York Herald of Monday.

Wm. H. Cranston, Esq., of Newport, R. I., son of the Hon, member of Congress from that State, is stopping at the United States Hotel. He is journeying West, with the intention of settling in some growing city or village, to give the inhabitants the benefit of his splendid and liberal talents in his favorite profession, the law.

**Dr. Boardman—Dear Sir:—Now being about leaving for home. I am able to give thus far a favorable account of the Lace which I have worn only four days. For more than four years I have suffixed greatly from dyspepsis, that scourge of our race. My food has always been so troublesome that my someth would reject it almost avery day—my bowels always constipated—my, head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of everbeing better. I had consulted many physicians and in Boston; those the most celebrated, and spent being better. I had consulted many physicians and in Boston, those the most celebrated, and spent meatly all the money I could earn, upon them and medicines. Since I have worn the Lace, all these medicance. Since I have work in the Lace, at these symptome have in a great degree variabled, and now, it seems to me, I shall be well again. I fit d my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

Various remedies, it is true, have been offered and pasted into notice for the cure of thereases of the lenge, and some have been found no doubt very meeful, but of all that have yet been discovered, it is admitted by phiscians, and all who have witnessed its effects, that some have proved as successful as this. For Ashma, Shortness of Breath, and similar affections, it may be pronotinged a positive cure. It has cured Asthma in many cases of ten and twenty years standing af-ter physicians had declared the case beyond the reach of medicine.

OPINION OF A SKILIFULL PHYSICIAN.
Sit, the operation of Locratic's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper, as physic, than any other Medicine I know of

icine I know of.

These Pills are now neknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others. This extraordinary medicine has actually done Wondens within one year past. They cause no pain or un-easiness of any kindin their operation, and require neither change of dict or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretotore been made by the use of this invaluable medicine, still greater and more remarkable cures

daily happen.

ndopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solicity to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most deficate, silky and alossy moisture, payer legices extended and glossy moisture never before attained, yet free of animal grease or escribial oils. It cleares the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous discases, disposes the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agrea-ble perfume, and the great facilities it affords in dressing the hair, which, when moist with the flu-id, can be dressed in any required form, so as to preserve its place, whether plain or in curls.— When used on children's heads, it lays the foun-dation of a good head of link.

Dr. Boardman, Sir—In answer to your inquity respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of .'39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing tery hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was honeless. Last winter my brother fold me he had case, I will merely say, that I have been sick since hopeless. Last winter my brother fold me he had heard a good account of Dr. Banning's Dace in heard'a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly besened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which is a blessing, which for many years I have not been able to do the many years I have not been able to do the many years I have not been able to do the many years I have not been able to do.

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and ultil menglicines recommended for such complaints, without regard to expense, and found only temporary, relief. If one work distressing complaints, palpitation of the lustry oppression and a sense of great weight at the pit of the stomach prolapsus of the womby converse believed after wearing the lace two fours, and when as continued to improve daily. Dactor Boardman,—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health alout two years and has worn a different Supporter from yours, which had only two bads. She reer from yours, which had only two pads. She re-ceived some benefit from that—but it would, not provide a cure. But now I can say with pleasure that she is as smart as any of the young girls in the that suc is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fist as I can, and I feel so well-pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. Middletoien, June 25, 1843.1

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will, state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found, only temporary relief. In most idistressing complaints, palpitation of the lustry, oppression and a sense of great weight at the pitol the stomach; prolapsus of the wombs &co.

after suftering severely a number of days wind in increase of pain and cuffering I was considered dangerous; at this crisis my, miller prevailed upon me to try a plaster of this salve which I, did, and in half an hour I became easy and, rested well. I continued this application and in a few days I was well. It cannot but prove a blessing to mankind, if they can be furnished with it.

Dear Sir.—You may perhaps think my, statement almost incredible. My, reason for learing so is the fact of your never recommending your lelly for the cure, of confirmed consumption, but you have primary, or first stages. I have every reason to believe that I was in its last stage; my physician told me so; as physician told me so; my friends told me so; as well did my symptoms, for they were truly, slarming; and I felt fully convinced, that unless relief was obtained.
